WORK EXPERIENCE

Netgate | *Web Solutions Engineer (Revenue Operations & E-Commerce)* *Nov 2022 - Present*

- Owned and managed all e-commerce storefronts, generating \$30M+ in annual revenue, overseeing product launches, storefront updates, pricing changes, integrations, inventory, and day-to-day operational decisions.
- Identified an opportunity to modernize checkout, built and demoed an express checkout integration (Shop Pay, PayPal) to the C-suite, secured executive buy-in, and launched the solution, driving \$15M+ in revenue.
- Developed and launched a subscription billing system POC using Python and Django, presented platform tradeoffs to C-suite, secured executive buy-in, and drove the project to launch, where it processes \$800K+ in ARR.
- Sourced, evaluated, and negotiated an extended warranty partnership, securing a 50/50 revenue share arrangement that generates \$250K+ in annual recurring profit with no cost or operational overhead to Netgate.
- Collaborated with C-suite stakeholders, including the CEO, CTO, CFO, VP of Sales, CMO, and Director of Operations, on go-to-market strategy, inventory planning, and pricing decisions in response to component shortages.
- Led implementation of a reporting system integrating storefront webhooks with an internal backend platform, enabling cross-functional teams to track revenue, customer behavior, and expansion opportunities.
- Partnered with marketing to plan campaigns, providing technical context, content recommendations, and messaging guidance to align communications with product availability and customer behavior data.
- Onboarded and supported 200+ reseller and channel partners as the primary technical point of contact.

In Plain English | *Technical Writer* *May 2022 - Nov 2022*

- Authored concept-focused articles on JavaScript, data structures, algorithms, and web security for a publication with 2M+ monthly readers, translating complex technical concepts for broad audiences.

Office of Mayor Darrell Steinberg | *Constituent Affairs Assistant* *March 2021 - October 2021*

- Managed 30+ constituent cases daily in Salesforce, serving as a direct point of contact and ensuring resolution and satisfaction with the Mayor's initiatives.

AWARDS

Dale Carnegie Highest Award for Achievement

- Recognized as the top performer in communication, leadership, and interpersonal effectiveness across the entire cohort, the highest distinction awarded by the program.

HackCWRU: FinTech Track, 1st Place (BudgetBetter) [Live Site](#) | [GitHub](#)

- Awarded 1st Place in HackCWRU's FinTech Track for developing a bank-account visualizer, pitching the product to a panel of judges, and winning against competing teams.
